Professional & Business Services

**\$106 M**

**Notes:** This analyzes Gross Domestic Product (GDP) for counties with county governments, which is based on where production occurs rather than where workers live. Small counties have populations of less than 500k residents. Percent change is calculated using the equation  $((new\ val - old\ val) / old\ val) \times 100$ . During the Great Recession, GDP reached its lowest point in Q2 of 2009. **Sources:** Bureau of Economic (BEA) - Gross Domestic Product Data by County, 2021. U.S. Census Bureau - 2021 Population Estimates Program (PEP). Bureau of Labor Statistics - Local Area Unemployment Statistics (LAUS), 2021
