FEDERAL LAND, LOCAL RESPONSIBILITIES

62% of counties have federal land within our boundaries.

Even though we are not able to collect property taxes on federal land, county governments must still provide essential services to our residents and those who recreate on these public lands each year. These services include road and bridge maintenance, law enforcement, search and rescue, emergency medical, fire protection, solid waste disposal and environmental compliance. PILT payments are a critical lifeline for counties with limited revenue options and vast federal footprints.

Our ask: Counties urge Congress to fully fund the PILT program beyond FY 2026 and to enact a long-term, sustainable solution that ensures stable federal support for public lands counties far into the future.
